Jagram

is a unique company,
difficult to compare
with any other

For example, we believe that success in business can be combined with family life and the pursuit of passions. We also believe that this can be achieved through a work ethic that benefits everyone, be it customers, business partners or employees (not forgetting of course ingenuity, intelligence and hard work). We recognize that this requires constantly learning and respect for the natural and social environment.

In practice, we honestly strive to supply our customers with best products at best conditions, for employees our attitude means no long working hours, and the chance to enjoy free weekends, while for suppliers it means they are paid on time. The company also fulfills all its obligations, pays its taxes, earmarks a significant budget for further training of its team members, and maintains good, long-term relations with business partners. It also means that the company renounces the now widespread use and importing of goods, materials and raw materials that are harmful to the environment and people, despite the potential profitability of such activities.

Quality & craftsmanship

We are garden wood specialists with over 30 years of professional experience; we love working in wood and creating beautiful, functional and durable products. We are proud to have earned • ISO • FSC® • PEFC • ITB certificates and supply our customers with products of the highest quality.

Rest assured
you have a 10yr guarantee
against rot with all
of our products.*

Your product will
never need treating.
No further
maintenance required.

Made from wood
sourced from
responsible forestry.
„Look for FSC®
certified products“

All Jagram products have been designed
and manufactured to the highest standards.

The entire range is manufactured using
european timber from responsibly managed forests.

FSC® certification available on request.

Glulam Curves

Jagram is one of Europe's leading manufacturers of glued laminated timber curves. In the last 30 years we have tested most of the world's leading glue, machinery and tool brands, adding our own patented solutions to create a technologically unique production process - our factory computers and machines will turn timber laths into laminated curves of the most elaborate shapes in just 40 minutes. If you are looking for a bespoke product - we are the best choice there is.

Imperia Chair 96100

Leisure collection

To create our loungers collection we invited the best designers and timber engineers to focus on ergonomics as well as the visual effect. As a result it combines luxury and comfort to enhance any standard décor, lending it an exclusive, unique appearance. They are also featuring quality, weatherproof, European made, shape adjusted cushions.

www.jagramleisure.com

Hammock Stands

Our hammock stands are recognized by leading hammock distributors around the world for their high quality, unique design and ecological European materials used for their production. The stands' maximum permissible load ranges from 120 to 200 kg.

Planters and other

Planters are the perfect products to create an unforgettable space in your garden. Plant some flowers in the pots and enjoy the view. This way of arranging your garden is also perfect for people who get bored easily or just enjoy changing things up. The planters can be moved easily without damaging the roots of the plants. If you choose a planter with trellis, another advantage is the possibility to shield your garden from the neighbours – the attached trellis are perfect for climbing plants to ensure privacy.

Wooden products combine perfectly with the greenery and they don't distract the eyes from the beauty of the plants, merely complementing them.

Oslo Planter

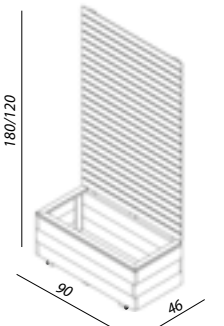

Larch planters collection

An excellent quality planter with trellis, ideal as a freestanding support for climbing plants or as part of a dividing wall on a patio or in a garden. The beautiful, modern design matches all products from the Larix collection. Smooth finish in amber color of natural larch.

052150M	180 x 90 x 46
052151M	120 x 90 x 46
052152M	180 x 60 x 46
052153M	120 x 60 x 46

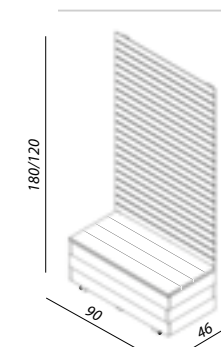

PIANO - PLANTER WITH TRELLIS

- large planting area ideal for climbing and other deep root plants
- made of slow-grown larch wood resistant to damage
- exceptional outdoor natural durability without the need for preservatives
- convenient place to hang garden tools or work gloves
- shelves, bench, quality castors, height-adjustable feet are optional and available on request.

This multifunctional patio bench of exceptional quality provides at the same time a seating area, storage for tools and cushions, and shelves for potted flowers. An ideal place to store garden tools and cushions. The beautiful, modern design matches all products from the Larix collection. Combined with the Piano trellis, it makes an attractive patio dividing wall. Smooth finish in amber-colored natural larch.

- modular - grows with your compost

Grow Your Own

When the season for new vegetables arrives, the temptation to add them to sandwiches, whip up salads, or simply snack on them between meals is immense. However, is what we consider healthy truly so? Did the plants not grow near a busy road? Was their growth not hastened with a handful of artificial fertilizer?

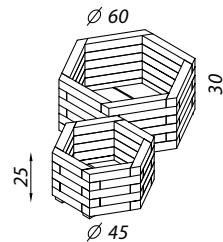

If such questions nag at you not just in early spring but throughout the entire growing season, we have a solution for you. Eating vegetables grown by yourself provides assurance about their origins. We've curated a whole line of products called "Grow Your Own". Everyone will find in it wooden planters and raised beds tailored to their needs—those suitable for placing in the garden and those that will fit even on a modest balcony or near a window.

Wooden Garden Trellises

a wooden trellis is an ideal surface for plants to climb on and it makes for a perfect partition to create an intimate space

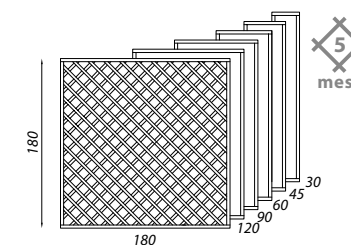

Garden trellises are perfect for supporting climbing plants, but that's only one of their many advantages. They provide an easy way to alter the look of your garden, terrace or even balcony. Moreover, you can install trellises to isolate the space from neighbours, block and unsightly view or to create an intimate area that makes one feel more at home.

How to choose the best trellis to suit your space? Keep in mind the various densities, as they may be useful for different purposes. For climbing plants, grilles with larger openings are more convenient, but if the trellis is to act as a partition, opt for denser ones. For a more modern feel, choose trellis with horizontal, dense sections between narrow openings, or go with the traditional version with square sections set at different angles. Installing well-chosen trellises can effortlessly make your leisure space more attractive and arrange it to suit your taste.

Venetian shutter Panels collection

Venetian shutter panels provide a practical solution to the age-old dilemma of balancing the desire for seclusion with the appreciation of open spaces. Can both needs be satisfied? Our answer: shield your balcony or garden while still maintaining a glimpse of the outside world. Picture a tranquil balcony overlooking a lively street or a serene garden oasis amidst the chaos of urban life. With Venetian shutter panels, individuals can seamlessly tailor their outdoor spaces to reflect their mood and preferences. For those seeking the flexibility to alternate between solid walls and expansive vistas, we recommend considering the adjustable version.

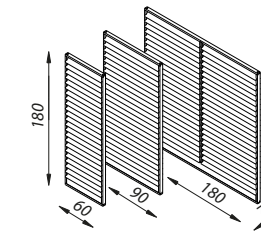

Our Venetian Shutter Panel was designed for that special area in your garden - the shutter opens and closes when you need privacy or shade. Easy operation and treated for a longer life.

Garden Arbours

A bench is essential in every garden, offering a place to sit and unwind. A bench where you can not only sit for a while, but also settle down comfortably and isolate yourself from your surroundings is a true luxury. Jagram arbours guarantee such conditions - made of solid wood, beautifully designed, comfortable to sit on, and providing privacy. What better place for a romantic chat, a moment's respite away from loved ones, or a gossip with a friend?

And if you choose the Finley Arbour – our newest addition – you can transform any nook of your garden while enjoying complete shelter from the sun and wind. The contoured, conveniently accessible bench box provides additional storage space and ensures supreme comfort.

040187 161 x 62 x 205

Garden Arches

MOONGATE

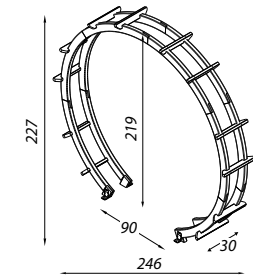

- attractive garden focal point
- can be used as an arch over a pathway or as a wedding arch
- durable, tanalised, multi-layer laminated wood
- 10-year Jagram guarantee against rot*.

041060 246 x 30 x 227

041063 245 x 100 x 227

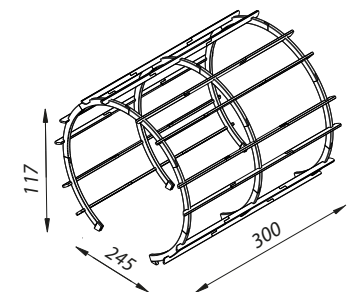

The wooden arch is indeed quite an eye-catcher. Regardless of your taste - whether modern or traditional, we have it all at Jagrams. Once placed at the entrance to your garden or over a pathway, it becomes the focal point. Those crafted by Jagram are sturdy and capable of bearing the weight of robust climbing plants, winding vines, and even bountiful fruits. Adorned with cascading blooms, they often serve as enchanting wedding arches..

041062 246 x 30 x 227

RIMINI

- roof tiles available in either black or green.
- floor sold as an option.
- oslo trellis panels available as an option

The tiled Rimini Entertaining Gazebo features a heavy-duty, handmade diamond trellis, providing an airy spacious area in which to relax with friends and family. This large outdoor entertaining space will easily accommodate a large table and chairs or fit nicely above a hot tub area.

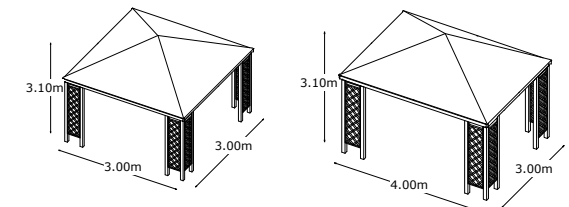

NAPOLI

- modern minimalistic design
- solid pressure treated timber frame
- heavy-duty waterproof canvas.

041500	310 x 300 x 300
041510	310 x 300 x 400

An attractive gazebo with a modern minimalist design. Lightweight but sturdy and stable structure that can be easily moved when needed. Climbing plants will grow quickly on the corner trellis, creating a fabulous effect.

DEAR CUSTOMERS,

JAGRAM IS A COMPANY WITH MORE THAN 30 YEARS OF PROFESSIONAL EXPERIENCE. DURING THESE YEARS WE HAVE SUPPLIED WOOD PRODUCTS OF THE HIGHEST QUALITY TO HUNDREDS OF GARDEN CENTRES, GARDEN BUILDING DISPLAY CENTRES, TIMBER MERCHANTS, RETAILERS AND DISTRIBUTORS. WE WOULD LIKE TO THANK YOU FOR YOUR CONTINUED TRUST AND SUPPORT OVER THE YEARS. WE ARE GRATEFUL FOR CHOOSING JAGRAM. WE WILL CONTINUE TO STRIVE FOR EXCELLENCE AND SERVE YOU TO THE BEST OF OUR ABILITY.

THE JAGRAM TEAM

Certificates

Jagram agram pays great attention to effective quality management and its compliance with the requirements of the European Union, both in terms of high quality of wood from which our products are made as well as environmentally conscious production system. Our wood comes from ecological European forests and our products can be certified according to the FSC (Forest Stewardship Council®) or PEFC principles on responsible forest management. Our factory has been awarded the ISO 9001 certification which ensures the highest quality of services. Joining the certification program is expensive and requires a lot of effort from Jagram, but it undoubtedly gives us and our customers many benefits:

- facilitates an increase in the level of customer service,
- streamlines management, resulting in lower costs and better prices,
- positively affects the perception of the Jagram brand,
- sets a standard for the competition to source the wood sustainably.

To learn more about the production quality, visit:

jagramgroup.com

The symbol informs that the product can be shipped in a cardboard box and that the dimensions and weight of this box allow using the most advantageous services of global carriers. The product is designed to weigh no more than 30kg and the parcel dimensions are limited to a maximum of 120x60x60cm. However certain products, due to their large dimensions, may require packaging in two or more of these boxes. For further information, please ask our sales team..

* The guarantee applies only for products that do not have direct contact between the wood and the humidity surface. Posts should be isolated from the ground, for example with an anchor.
